GIVE THE REASON.

Certainly, and with pleasure, form man
should always give a reason for the hope
within him.

We have declared both publicly and
privately, that it was our firm belief Mr.
Greely would be elected. In this de-
claration we were always quite sincere.

To say this is all "gipse work," is to

confess great ignorance upon the part of

those who have pretended to watch the

parties. If we take the following

statements upon the vote for President

at the last election, we arrive somewhere

at the fair estimate of what is coming

next month, but then, we must not for-
get since that election, important politi-

cal changes have been made and are still

going on, in the interest of Reform.

The declarations of the Democrats and Li-

berals will materially change the figure

on the Seymour vote, in my favor.

The following tabular statement is made

upon facts and figures, not from fancy or

judgment. Some time since we made a

similar statement, but in the light

of recent facts, we are now enabled

to present a different and better table.

The shortest, easiest, and most satisfac-

tory way of calculating the chances of

each party in the pending Presidential

vote, is to prevent a list of the States

in the electoral vote of each, and then

add the probable vote of each. Follow-

ing this plan, we get—

GRANT.

One hundred and eighty-four electors

are now required to elect, and from it

it will be seen that Mr. Greely has far

more than necessary.

There are many votes given

Grant in the above statement, which an

initial, and in the statement made by

Greely, and hence we often one again

the other.

We are honest friends to our equals,

but Greely will be tried. The

friends and supporters of Grant are
